Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from *Plant Culture a Working Hand-Book of Every Day Practice for All Who Grow Flowering and Ornamental Plants in the Garden and Greenhouse* In nearly all of the recent works of this nature, appearing in America, the subjects dealt with have been confined, more or less, to those plants that can be and are cultivated by commercial florists for profit, or by those who own conservatories. And while the present book includes all this class of information it has a far wider scope treating, as it does, on the care and management of a diversity of plants not touched upon by other writers, all equally necessary in the adornment of our gardens and homes and for this purpose, as beautiful and interesting as those that generally receive the greatest attention from authors of most horticultural works. Divested of superfluous verbiage, and shorn of perplexing technicalities which tend to confuse, the cultural directions here given can be easily and successfully followed, the results contributing to the perfect enjoyment of the purest of human pleasures, by some, and affording to others a lucrative occupation. What I have given here are teachings gleaned and sifted from the experience of many years work as a gardener and florist. The methods described are such as have been successfully practiced by me and can be safely relied on as up-to-date and thoroughly applicable to American conditions and requirements. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections...
