

Ignosticism: A Philosophical Justification for Atheism (Paperback)

By Tristan Vick

Createspace Independent Publishing Platform, United States, 2013. Paperback. Book Condition: New. 203 x 133 mm. Language: English . Brand New Book ***** Print on Demand *****.What if the question Does God exist? proved to be meaningless? What if the very definition of God was incoherent? Could you still, in good conscience, believe in something if it was incoherent and meaningless? Would it even be possible to talk about an incoherent and meaningless thing meaningfully? If not, then what consequences would follow from this realization? These are the questions which the branch of philosophy known as ignosticism concerns itself with. Ignosticism: A Philosophical Justification for Atheism examines these questions and delves into the idea that God is a type of language-game. Taking a Wittgensteinian view of language, Tristan Vick takes us on a journey from learning theory to semantics to psychology in this philosophical exploration of whether or not the idea of God holds any relevant meaning. Perhaps more controversial still, Vick makes the case that ignosticism, properly understood, can be used as a positive justification for the reasonableness of atheism.

Reviews

A very amazing publication with perfect and lucid information. We have read through and that i am certain that i will planning to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).

-- **Matilda Hoeger V**

Extensive guideline! Its this kind of very good study. It really is full of knowledge and wisdom I discovered this book from my i and dad encouraged this publication to understand.
