A GENERAL PLAN FOR A MAIL COMMUNICATION BY STEAM: BETWEEN GREAT BRITAIN AND THE EASTERN AND WESTERN PARTS OF THE WORLD (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A General Plan for a Mail Communication by Steam: Between Great Britain and the Eastern and Western Parts of the World Startling as the subject of connecting China and New South Wales with Great Britain, through the West Indies, may at first sight appear, both as regards time and expense, still few things are more practicable. The labour and expense of crossing the Isthmus of America, either by Panama or by Lake Nicaragua, by a land conveyance, is trifling. With eight steam-boats, only four additional to the number already in the West Indies, added to the present sailing-packet establishment, the whole Plan for the Western World, extending it westward to China and New South Wales, can, in the mean time, as the following pages will show you, be put into execution to the fullest extent, with a very great saving in time, and with very great regularity. A water communication moreover will, I feel convinced, and at no distant day, be carried through the American Isthmus - say by Lake Nicaragua - when the sailing packets for the Pacific may run direct between Jamaica and Sydney, New South Wales, and Canton-China. In the estimate for the cost of steam-boats to be employed in the service proposed, I have been chiefly guided by, and adhere to, the statement made by that able and practical engineer Mr. Napier, of Glasgow, in his evidence to the Post-office Commissioners in 1836, that steam-boats of 240-horse power, and 620 tons burthen, could be furnished at from 24,000l. to 25,000l. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a...
